Blurb about the project :

OfficeHub is a full-stack web platform designed to support freshers and professionals by combining essential office tools in one place. Built with the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, OfficeHub integrates multiple professional tools into a single, user-friendly interface.

It features three core modules:

- **Resume Builder** – Allows users to input details and export professional resumes as PDFs using **jsPDF**.

- **Office Essentials Store** – A mock e-commerce section providing static daily office supplies with product listing functionality.

- **Portfolio Creator** – Enables users to build and customize a personal portfolio showcasing their skills, work, and contact information.

The platform offers a **responsive UI (React + CSS)**, **RESTful APIs**, and **MongoDB** for structured data

management, providing a seamless full-stack experience.
